COMMENTS: The DOE Rep that I talked to about my concerns was pleasant and seemed knowledgeable about the rail project. He answered my questions promptly.

While I am supportive of our country finally doing something to ~~proper~~ dispose of our nuclear waste, and City County joint Resolution I feel the rail line will cost more than is being stated, and delay the project.

Please note: Your comment(s) must be received by the Department of Energy by June 1, 2004 to be considered. Comments received after the close of the comment period will be considered to the extent practicable.

If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so the address and postage-paid notice are visible, then secure with tape.

Please feel free to attach additional pages (if mailing, more postage may be needed).
